

BRIEF INTRODUCTION TO PAULINE LAUMANS

Pauline is a curious personality who knows the art of metaphysical observing, asking questions and listening to answers.

She herself passed many personal life themes in addition to a.o. psycho-social training. It allows her to instantly experience bottlenecks and by deeper observing how they can be solved.

As metaphysical writer, visionary and energy reader (quantum fysica) she is highly aware of many life themes.

She supports people by challenging them by providing insights and to take appropriate steps. She uses various Social Media, writes a blog at <http://www.c-t-u.com/blog> and two guest columns at www.leefbewust.com and on www.Linkedin.com at the national animal welfare network.

As a professional speaker she acts at www.ZijSpreekt.nl, gives lectures and has authored five books full of life insights. In the personal contact she is direct but honestly, warm, involved. She uses her ability to penetrate to the core of the question.

Her aim is to restore the balance and to allow people to be once more aware of their purpose and become alive living beings rather than death living beings.
