

Who is John

John van Trijp holds a BSc of Utrecht University of Applied Sciences in the field of Analytical Chemistry and Chemical Process Technology. A MSc of Open University of The Netherlands in Environmental Sciences, where he graduated on “Quantification of Carbon Fluxes in Terrestrial Ecosystems by Means of Remote Sensing – Respiration in Scandinavian Boreal Forests”. He completed a Post Doctoral Master of Public Safety (MPS) at Delft University of Technology with his thesis “An Attempt to Quantify Resilience of Emergency Response Organizations”. He holds diplomas on Alternative Dispute Resolution, Coaching and Intuitive Studies.

John has a diverse professional background, ranging from radiochemistry, toxicology, biotransformation studies, analytical chemistry at the University of Utrecht and Wageningen University and Research Centre to serving with several Fire Departments and Fire Services as HazMat Incident Commander, Deputy Chief Intelligence and Manager Risk Control.

At the moment he is active on multiple levels: as partner; researcher / specialist Public Safety at Libertas in Vivo v.o.f. with keen interest in resilience and as intuitive coach on life issues; as lecturer / supervisor NIFV National Fire Academy in The Netherlands specialized in Risk Management programs. He is co-author of three self-help books and presents his (scientific) insights through lectures; books; papers; conferences; blogs and social media. He is member of the Board of Advisors of i-Canada in Ottawa On, Canada and was awarded the Fredericton Business Ambassador Award 2011 in Fredericton NB, Canada.

His Common Denominator is “Personal Touch and Feel Centering Men and Mankind in the Lime Light”
