

At the age of 4, I already had InSights that are ahead of time.

After high school I specialized in several tracks of Personal Development as well as Management. Through personal experiences of many issues live throwed at me next to my Psycho-social education and other education, I am able to instant feeling where bottlenecks lie and how those can be solved. For those solutions understanding and motivation are necessary. I give such guidance to people who ask my advice. It provides the individual or the company who ask my insight, to understand how they can overcome personal or social barriers such as for instance resistance, fear, shortsightedness etc..

At present (2011) I have already written four books in two languages, a fifth only in Dutch. Furthermore I write a blog (www.c-t-u.com/blog) and two columns (www.leefbewust.com) and at the Dutch linkedin groups for animal welfare. Next I gives lectures at the Academy of Coaching and Counselling and personal consultations.

I won an award in Belgium in an essay contest with the working title "" New times, new values better insights ...?". My contribution was "A mature society is the difference between egoism and egocentrism."

My many studies, knowledge, skills and insights allow me in my counseling and guidance to bring forth the essential point and highlight it from many points of view. In it I am honest and direct as I strive to redress the balance. Justice and a deep understanding of life motivates me. I want others to understand what's going on and how a (desired) change can be achieved.

My Insights involve the whole spectrum of life from 0 (Big Bang) to Now (=the book of life). For me Life is an experience that keeps me living alive. I wish it is the same to you!

At present I make a television program around the consultations I perform.

By asking questions & perceiving answers, I managed to obtain Navaratha (9 mystical jewelry who symbolize spiritual principles) & became a Jivanmukta; a person with Purvajnana (knowledge of past lives) & Dharmakāya (to view the truth by intrinsic emptiness of mind) & a Mahatma (a soul almost liberated from the cycle of death and reincarnation). In other words a Mukti who accessed the monadic world.

I am originally rooted in Nature and Psycho-Social Studies. My study in Intuition and interest in Quantum Physics allow me to see parallels and paradoxes. I see all that is beyond, mine and your, regular perception and imagination.

It is the basic for the books, lectures and counseling as there is always more to the subject then we at first sight notice.
