

Personal Intuitive Management

This extensive program is designed for those who wish to explore their fullest potential in life. This is done by introducing you to your own inner life hence giving access to your intuition.

Any part of this program asks you to let go of old beliefs; rigid thinking; prejudices and take nothing for granted. As a detective you explore your own life and discover what it is you want.

You eventually learn to put your intuition to daily use.

Co-create Your Life®

This program is divided in many courses, some sub divided in modules, which can be followed as such and all have one particular main topic. However, certain courses can only be followed when other more basic courses are completed.

Everyone has to start with three basic modules in which one familiarizes the basic techniques. One learns to become aware of the energy everything has and learns to communicate with this energy. In communicating you discover how you can let go of energy that does not suit you anymore and how you may replace it with new energy that suits.

As soon as the three basic modules are completed, one may follow up from a variety of courses dealing with all kind of aspects of life (Advanced Themes).

Each course/module normally takes three months (12 weeks, one evening per week) to complete and there are three courses scheduled per year. Courses proceed only when enough students have enrolled. Eventually it is possible to enroll in a special Training and Graduate program where you learn to read the energy of others on a deep and essential level. Completion of these programs entitles the graduate to bear the title of *Energy Therapist / Counselor*.

From a bird's eye view the curriculum looks as follows:

First year – *The Basics*; Second year – *Advanced Themes*; Third year – *Undo yourself from the energy of others*; Fourth and Fifth year – *Read energy of other life*; Sixth year – *Graduate Year and dealing with deeper levels of energy*.

For the future it is foreseen more specialized post grad programs will be developed.

The cost of each 12 week module is € 300,--(BTW or VAT)

Different conditions apply for the special Training and Graduate program.

For more detailed information see our other leaflets on this topic or get in contact with us.
